

AME TECHNOLOGIES

FORWARD ADAS RADAR

Abstract

“Flowcode is truly an unparalleled platform and provides you with the freedom to move”

P.A.ABBOTT(André)

The Director Mr. J M Schoeman, of the AME group of companies, was approached in 2018 for assistance regarding a forward-vision collision avoidance radar system, to improve safety operations at their mines. AME Aviation (PTY) Ltd was the best-suited to fulfil the client's requirements and safety regulations.

The urgent demand to develop such a system require versatility and efficiency for programming.

When Flowcode was evaluated as a potential platform, effectively all requirements were met to go from concept to full production.

First Generation

Second Generation

With the client truly impressed with the turnaround time, an order was placed to manufacture the third-generation system that is currently being developed.

Active second generation Systems

I will recommend Flowcode to young aspiring programmers and experienced programmers. Flowcode is truly an unparalleled platform and provides you with the freedom to move between hardware platforms with ease, and reduce time and prototyping costs. Flowcode is a well worthwhile investment if your main goal is to get the job done economically and efficiently even when you are not a guru or seasoned expert.

AME

Group of Companies

AME
Telecommunications

A Telecommunications company providing:

- Fibre Routes
- Routers/WAN/WLAN
- Diesel Generators
- VHF/UHF/HF/Microwave
- Systems Integration
- Support & Maintenance

Contact us at:

- +2712 – 547 7715 or
- sales@ametelecoms.com

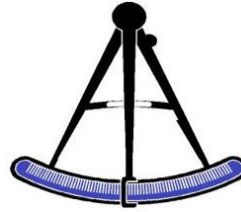

AME
Power Solutions

A Power Solutions company providing:

- Solar Solutions
- Battery Systems
- Diesel Generators
- Off-Grid Solutions
- System Design
- PPA's/BOT's/PPP

Contact us at:

- +2712 – 547 7715 or
- sales@ameps.africa

AME
Air Traffic Management

An Air Traffic Management company providing:

- Communications
- Navigation
- Surveillance
- ATC Tower Solutions
- Runway Lighting
- Integration & Support

Contact us at:

- +2712 – 547 7715 or
- sales@ameatm.com

AME
Aviation

An Aviation (Civil/Military) company providing:

- AMO/DO/DAR
- Avionics & Instruments
- Electrical Systems
- Auto Pilots
- Bench Repair Capability
- Log Support Contracts

Contact us at:

- +2712 – 567 1253 or
- sales@ameaviation.com
